

SUSTAINABILITY POLICY

Assess Orr Pty Ltd (Assess Orr) recognises the responsibility to minimise our impact on society and the natural environment when we design, build, manage and work with others.

We work closely with our employees and stakeholders on all aspects of sustainability, striving to balance short and long term interests and to make economic, environmental and social considerations integral to our decision-making. We engage in dialogue with our partners and those who are affected by our activities.

Assess Orr is committed to being a responsible business. This means conducting our activities according to rigorous ethical, professional and legal standards. We will not condone corruption, bribery or unfair competition.

Working in partnership with our customers to deliver good quality projects on time, safely and with due regard to the environment. We develop low carbon options whenever possible for our customers and encourage them to choose sustainable design, materials and construction methods. We aim to be the preferred supplier of low carbon solutions.

At Assess Orr we believe that People, The Planet, and Profit can be managed equally. To this our Commitments are:

1. People

- Customers: We strive to exceed client expectations;
- Community: We promote good community relations;
- Education: We act as an ambassador for the construction industry;
- Employees: We are committed to our employees;
- Supply chain: We procure responsibly

2. Planet

- Energy: We strive to reduce our climate change impact;
- Energy: We strive to reduce our climate change impact;
- Environment: We will limit our environmental impact.

3. Profit

- Innovation: We innovate to identify balanced sustainable solution;
- Prosperity: We believe that sustainability leads to economic prosperity.
